

Jane Gibson Ellis Parker

said that - she was out that-  
night - looking for Thieves

Don't ask any Questions on  
this, but argue why she did  
not complain to the authorities  
was she a mounted Cop  
and was patrolling that-  
district;

she certainly would not-  
go out Patrolling after Thieves  
without <sup>a</sup> gun or knife to  
protect herself

As it - possible she mistook  
Mrs Mills & Dr Hall as the  
Thieves & shot them

she says she was there at 1020  
& again at 2 o'clock, did she  
take the knife & gun home  
and return & place the Bodies  
you have heard the Bodies as  
to Position described

I just rec<sup>d</sup> these from Julia & have not had time to study them you can see by Jim & Charlott's Statements. I knew after my first-talk to everyone connected with the case where the murder laid and if it had not been bungled so badly & I could of gotten any support, & if the Public's mind had not become set in one direction I would of taken this case where Beckman requested, in spite of the fact at that time I was a nervous wreck - was not eating or sleeping, as I had a dozen murders under arrest,

I knew I could not get any support, as 90% of the People at that time believed Mrs Hall did it - or knew who did it - to turn this around in the right direction would then be impossible, the Public did not want any one punished - they just wanted it solved. been Great Story for the Press but right will always prevail

= very strange =

has in his rifle

Charlotte says her father tells every  
one now he is saving more money  
since she is dead

Charlotte says she never heard her  
mother say any thing about a game  
that she does not know a 38 from  
a 32

Charlotte says her mother never  
had Faunting spells
